Portfolio: portfolio-tau-ruby-37.vercel.app | GitHub: github.com/Princebounce

Professional Summary

A versatile frontend developer with over 2 years of experience creating dynamic and responsive web applications. Proficient in JavaScript (ES6), React.js, Tailwind CSS, and API integration. Adept at collaborating with teams to deliver high-quality projects, managing time effectively, and learning new technologies swiftly.

Education

Obafemi Awolowo University, Nigeria
Bachelor of Science in Chemical Engineering | Graduated: 2020

ALX Africa, Nairobi, Kenya
Frontend Engineering Diploma | Graduated: August 2023

Work Experience

Frontend Developer, RaySolutions
Remote | May 2024 – August 2024

- Built a fully functional frontend e-commerce page using React.js and Tailwind CSS, enhancing user experience and interface design.
- Collaborated with senior developers, gaining insights into scalable coding practices and frontend architecture.
- Developed features like shopping carts, product listings, and seamless navigation for improved usability.

Frontend Developer, Stutern
Remote | November 2023 – December 2023

- Created an animated drag-and-drop dynamic photo library, delivering a highly interactive and engaging user experience.
- Leveraged JavaScript and CSS animations to achieve responsive and visually appealing designs.
- Collaborated with team members to implement feedback and ensure functional excellence.

Frontend Developer Intern, HNG Internship
Remote | August 2023 – October 2023

- Developed components using React.js and Tailwind CSS, contributing to dynamic and responsive web applications.
- Worked with APIs such as TMDB and Unsplash to integrate data and enhance functionality.
- Collaborated effectively with backend developers to ensure seamless project integration.

Projects

- **Pomocus**: Developing a time management application using Vite and React, inspired by the Pomodoro technique and the functionality of Pomofocus.io. Includes features like customizable timers, task management, and real-time progress tracking. Focused on session history and productivity trend analysis.

- **E-commerce Frontend Page**: Designed and developed a functional frontend for an e-commerce platform with React.js and Tailwind CSS.

- **Animated Photo Library**: Built an interactive, animated drag-and-drop photo library to enhance dynamic user engagement.

- **Movie App**: Created a movie discovery app using TMDB API for real-time updates and functionality.

Technical Skills

- **Frontend Development**: JavaScript (ES6), TypeScript, React.js, HTML, CSS/SCSS, Tailwind CSS

- **Version Control**: Git, GitHub

- **APIs**: Axios, TMDB API, Unsplash API

Soft Skills

- Excellent teamwork and collaboration

- Effective time management

- Quick adaptability and fast learning

Hobbies

- Reading and writing

- Playing games and swimming

- Technological research
